TOP REASONS STUDENTS CHOOSE ST. ROBERT SCHOOL

Hands-on Learning

- Learning is active and fun
- Project Lead the Way that enables middle school students to apply STEM (Science, Technology, Engineering and Math) disciplines and contemporary tools, such as robotics kits and a 3D printer, to solve real world problems
- Small class sizes

Healthy Screen Time

- Developmentally appropriate use of technology integrated into the curriculum
- Bring-Your-Own Device program for middle school students
- Contemporary Media Resource Center

Sports, Music and the Arts

- Basketball and volleyball
- Band, choir, strings and piano
- Art and music classes
- Variety Show and professionally directed Middle School Musical

TOP REASONS PARENTS CHOOSE ST. ROBERT SCHOOL

Exceptional Curriculum and Faculty

- 73% of faculty and staff hold advanced degrees and/or specialty licenses
- Evidence-based curriculum including personalized workshop-model reading and writing programs and integrated, lab-based Science, Technology, Engineering and Math (STEM) curriculum
- Teaching model that combines academics, faith and values and promotes Life Smart skills
- Students with a range of complex learning needs or significant learning disabilities are fully included in the school community and thrive with the support of specialized staff

Engaged Community

- Welcoming parent community
- Strong parent involvement
- Dozens of social and fundraising events for parents and families throughout the year

Life Smart Students

- Successfully transition to high school and beyond
- Challenged to achieve maximum potential
- Encouraged to use critical thinking, creativity and problem-solving skills
- Participate in meaningful community service initiatives
- Demonstrate faith and values at school and in the world

Investment in a Healthy School

- Commercial-grade air filtration system in every classroom that is 99.9% effective in removing pathogens – including bacteria, viruses and mold – from the air
- Touchless faucets on every sink
- Powerful, chemical-free Stabilized Aqueous Ozone (SAO) system used to clean and sanitize surfaces throughout the school, throughout the day
